ASPIRATION NEEDLE

OLYMPUS **NA-11J-KB**

A More Reliable, More Powerful, and More Precise Way to Pierce Tough Tissue. Introducing “PowerShot Needle”, the World’s First Spring-Loaded Aspiration Needle

The original idea of this NA-11J-KB is brought by Kenneth F. Binmoeller, MD (California Pacific Medical Center, California, USA) and this NA-11J-KB was co-produced with OLYMPUS.
Recommended Paper for the Experience of NA-11J-KB:
Endosonography-Guided Fine-Needle Biopsy of Indurated Pancreatic Lesions Using an Automated Biopsy Device (K.F. Binmoeller, California Pacific Medical Center, California, USA), H.C. Jabusch, H. Seifert, N. Soehendra (University Hamburg, Germany) : Endoscopy 1997; 29: 384-388
